We reserve the right to change the quantities to standard packaging on staple items unless you specifically state "do not increase." For the Master Carton (Box) Quantity List, please visit meritbrass.com/pricesheets.

Some items not shown may be available upon request. Some items and sizes may be discontinued when stock is depleted and may require a minimum order quantity. Certain inventory limitations may apply. Priced on application (POA). All prices subject to change without notice.

Every precaution has been taken in preparing this sheet. Merit Brass Company cannot be held responsible for omissions or typographical errors. For list prices in Excel, please download by logging onto meritbrass.com/pricesheets. Contact our Sales Team for details at sales@meritbrass.com.

Stainless Steel ANSI Forged Flanges Features & Benefits

- Used to join two pieces of pipe or connect valves in a piping system; allow for mobility in a piping system by being bolted together for on and off installations.
- Unique in the fact they have a raised face on the interior portion of the flange; this raised face provides (in combination with a gasket) excellent sealing properties.
- The forging process in ANSI flanges also allows for the flange to be tightened considerably to prevent leakage and to provide stability in a vibration situation.

Available in:

Blind

Lap Joint

Slip-On

Threaded

Welding Neck

Socket Weld

LOCATIONS

CLEVELAND HEADQUARTERS

One Merit Drive/PO Box 43127, Cleveland, OH 44143

BIRMINGHAM DISTRIBUTION CENTER

220 Oxmoor Court, Birmingham, AL 35209

DALLAS DISTRIBUTION CENTER
